Below lists a potpourri of education or teaching-related courses for future science and mathematics teachers to consider. To determine appropriate course selection that satisfies your specific career needs and objectives, please schedule a personalized SMI advising appointment. The SMI Resource Center also provides information about STEM degree options that emphasize teaching. To get started, attend an SMI Information-Advising Workshop. To sign-up, visit http://smi.ucr.edu/workshops/index.html. Please consult with your academic advisor about major-related advising information.
